

6 May 2009

**Competitor Bulletin #5 - Lanark Highlands Forest Rally, 9 May 2009**

**Fueling at Start of Rally (before Transit to ATC 1)**

This bulletin, as are all bulletins, is provided to help your planning for the rally. Any changes will be posted at the rally.

The designated / supervised Refueling Area **will not** be available after MTC Out. Teams should ensure they have enough fuel on board to complete a total of at least 10 km of stage distance, and 42 km of transit distance, prior to leaving for Stage 1, *ClearWaterDesign*.

As is normal, refueling in the designated / supervised Refueling Area is built into the schedule and will be available after each Service break, of which there are two.

Fueling will also be open before the rally during the following times:  
Saturday, 07:00 to 12:00

Craig Hamm  
LHFR Clerk of the Course
